

September 2023
Shinko Seiki Co., Ltd.

Dear valued customers,

Discontinuation of production of Shinko Seiki's analog Pirani vacuum gauges

Thank you very much for your continued support.

Regarding analog type Pirani vacuum gauges manufactured by Shinko Seiki, which has received patronage for many years, it has become impossible to continue production due to the discontinuation of production of the parts used.

Thus, we have made the decision to discontinue production of all type of analog Pirani vacuum gauges (Please refer to below).

We apologize for the inconvenience and appreciate your kind understanding.

The production end schedule is shown as follows.

【Analog Pirani vacuum gauge to be discontinued】

PG-SX、PG-SY、PG-SSW、PG-SSY、PG-MW2、PG-MW4、PG-MW6

【Production end schedule】

Last order date : 2023.11.20

Last shipping date : 2024.6.30

【Repair / Calibration support】

Repair support period : 7 years from the last shipping date (until 2031.6.30)

Calibration and adjustment work : We will continue to provide support even after the repair support period ends.

*Excluding cases where parts of the main body need to be replaced.

We will continue to supply measurement cord and sensor (PG-85).

Production of digital type Pirani vacuum gauges will continue. (Please refer to the attached table for the lineup) We look forward to your continued support on our products.

Analog type Pirani vacuum gauges to be discontinued

Model	PG-SX	PG-SY	PG-SSW	PG-SSY	PG-MW2	PG-MW4	PG-MW6	
Measurement range (Pa)	20~2000	0.2~100	0.2~2000	0.2~100	0.2~2000			
Measurement point	2 points				4 points	6 points		
Set point	1 line		2 lines		Meter only, no set output			
Recorder output (mV)	0~10 (Use recorder of input impedance 10kΩ or over)							
Power source (50/60Hz)	AC100V 20VA							
Outside dimensions (H×W×L)	190×125×260 (Portable type)				190×125×210 (Portable type)			
Weight (kg)	3.3	3.3	3.4	3.4	2.5	2.55	2.6	
Accessories	Sensor	PG-85 φ 15 2pcs.				4pcs.	6pcs.	
	Measurement code	Single core shield code 2.5m 2pcs.				4pcs.	6pcs.	

Specification of Digital type Pirani vacuum gauges

Model	PG-DP2	PG-C1	
Measurement range (Pa)	0.1~2000		
Measurement point	2 points concurrent measurement	1 point	
Pressure indication	4 digits	manttissa : 2 digits, index : 1 digit	
Recorder output (DC mV)	0~100 (before shipment) / 0~10 changeable	0~100.75	
Data output	RS-232C	RS-485	
Measurement point	2 lines (≧ AC/DC 400V 0.5A)		
Power source (50/60Hz)	AC100V 7VA	AC100/200V 7VA	
Outside dimensions (H×W×L)	132.5×110×228	78×71×110	
Weight (kg)	1.6	0.35	
Accessories	Sensor	PG-85 φ 15 2pcs.	PG-85 φ 15 1pc.
	Measurement code	Double core shield code 2.5m 2pcs.	Double core shield code 2.5m 1pc.
